

## Comprehensive Medication Review - Report to Health Care Provider

### Attention: MICHAEL FUTRELL

Patient: MARTIN PONCE

DOB: 02/10/1969

Prepared by: Chelsea Durnil, Clinical Pharmacist

Date: 01/30/2026

To: MICHAEL FUTRELL

Your patient, MARTIN PONCE, is participating in the True RX Diabetes Outcomes Program for overall diabetes awareness and education as part of their prescription benefit plan. This program also includes comprehensive medication review and gaps in care analysis. Your patient was seen by me as a part of this program.

Based on our discussion and my assessment of MARTIN PONCE's current medication regimen, I noted the following recommendation(s) for possible changes to your patient's regimen. Below is the complete assessment and recommendations for your consideration.

#### Clinical Recommendation(s): None

1. follow-up visit. Tolerating increased dose of glipizide.

Now checking BG twice a day.

AM: 125-130

PM: 2 hours post-prandial: 140-150

Patient has started making changes to diet: using plate method and has cut down on high carb snacks.

Will send at home a1C kit, encouraged to schedule appt with provider.

Follow-up with PharmD in 3 months.

MARTIN PONCE will be working on dietary and lifestyle changes as a part of this program and seeing the clinical pharmacist every 1-3 months.

If you would like to address any of the information provided, please either send via fax to my attention at 812-254-7426. I can also be reached at 833-650-9797 or by email at [diabetes@truerx.com](mailto:diabetes@truerx.com).
