
FAX TRANSMISSION TEST

from fax.wax.sh — a software fax modem

Hi there!

You're receiving this fax because we're testing a new software-based fax modem that sends faxes over the internet.

If you're reading this, it worked!

Could you let us know this arrived?

Please send a quick text to:

Just say "fax received" — that's all we need. Thank you!

This is a one-time test, not spam. No reply necessary if inconvenient.
