

Hello,

This is a test fax sent using our mobile FAX app.

The FAX app makes it easy to fax documents to anyone from the comfort of your home or office. Best of all, you can send faxes in multiple formats and keep track of everything you send, so you can be sure your documents are in the hands of the recipient.

So this app comes in handy when you need it.

Send and receive faxes from
anywhere using your smartphone.
No fax machine required.
