personal injury or property damage other than
product fault due to improper use of the

Installation

To ensure that you use this machine safely, read the
following precautions carefully before installing the
machine in a suitable location.

WARNING

Do not install in the locations listed below

Doing so may result in a fire or electric shock.

- Locations that risk blocking the ventilation slots (too
close to walls or curtains or on materials such as
deep-pile carpets)
- Damp or dusty locations
- Near heating appliances or open flames
- Near alcohol, paint thinners or other flammable
substances

Do not use a wireless LAN close to medical
equipment (only for products with a wireless LAN
function)

Radio waves can interfere with medical equipment and
cause malfunctions that may lead to accidents.

CAUTION

Do not install in the locations listed below

Doing so could result in a fault or adversely affect
people or other equipment.

- Outdoors or in locations exposed to direct sunlight
