Clarity Pediatrics Referrals

Thank you for trusting us to partner with you in providing care to patient families with ADHD and anxiety concerns.

While we make an effort to connect directly with every referred family, some families have not yet enrolled in care. The list below includes newly referred patients who are currently in our initial outreach phase, as well as previous referrals who have not yet scheduled an appointment despite multiple attempts via SMS, email, and phone.

Please Note: In some instances, families may have self-enrolled in care without identifying a referring provider at the time of intake. These patients may still appear on this list as 'not yet enrolled' under your specific referral profile.
