Fax

Address Line 1

Address Line 2

City

State

ZIP Code

Notes

---

## Acceptance Criteria (Expected Behavior)

- When a user saves an external order, the generated PDF displays Order Type, Relevant Information text, and Referral Contact information (if selected).
- When a field exists in the PDF template, the corresponding value is displayed.
- When a field does not exist in the PDF template, the PDF still renders without errors.
- When no referral contact is selected, referral contact fields appear blank.
