I administer an RK360 Cloud Health Record for myself. I ask that you upload to that RK360 Cloud Health Record all results of telehealth and onsite visits, during all years, with me, without delay, per HIPAA and 21st Century Cures Act (<https://www.healthit.gov/curesrule/>). If I have confirmed your previous upload of files to this RK360 Record, you need not upload these files again.

Please copy this secure, time-limited link to your web browser <http://localhost:8080/DfHyIrIT> After identity authentication, within 48 hours after this message was sent, you may:

- Access photo, ID, and health Insurance cards for record-matching purposes.
- View and download my HIPAA Request for Access to Health Information.
- Upload all results of telehealth and onsite visits with you and your business associates, during all years up to the above date (including but not limited to care plans, discharge summaries, encounter notes, lab results, radiology imaging reports, referral notes, vaccination certificates, and X-rays). If I have confirmed your previous upload of files, you need not upload these files again.

You will receive confirmation from me, via RK360, of timely request fulfillment without record-matching errors.

Thank you,

Chris Howe-Jones
