

Android mobile printing

1) Install the app

- Search for **Mobility Print**  in the Play Store.
- Download and install the app.
- Open the app. It will show if notifications or printing needs to be enabled.

2) Connect to library wifi

- Seaford & Hub Library: connect to **Library_Print**
- All other libraries: connect to **LibrariesSA-Free**
You must be connected to library wifi to print.

3) Open your file

- Open the document, photo or webpage you want to print.

4) Print

- Find the **print** option. It may be under share  or the three-dot  menu.
- Tap the top of the screen to select a printer.
- Choose the printer that matches your paper size and colour preference (e.g. A4 black & white).
- Tap the printer icon  to continue.
Tap OK when  asked to 'use mobility print'.
- A login screen will appear. If not, check for a 'your job needs authentication' notification and tap it.
- Login using your **library card number** for both username and password (starts with capital X or D).
Guest users: enter your guest ticket details.
- Tap **sign in and print**.

Your files are uploaded and ready to release at the printer.
