### **CONFIDENTIAL/PRIVILEGED FACSIMILE COMMUNICATION**

The information contained in this facsimile transmission is confidential and intended for this addressee only. If the reader of this message is not the addressee or addressee's agent, you are hereby advised that any dissemination, distribution or copying of this information in this transmission is strictly prohibited.

If this information has been disclosed to you from records protected by federal confidentiality rules (42 CFR part 2), the federal rules prohibit you from making any further disclosure of information in this record that identifies a patient as having or having had a substance use disorder either directly, by reference to publicly available information, or through verification of such identification by another person unless further disclosure is expressly permitted by the written consent of the individual whose information is being disclosed or as otherwise permitted by 42 CFR part 2. A general authorization for the release of medical or other information is NOT sufficient for this purpose (see § 2.31). The federal rules restrict any use of the information to investigate or prosecute with regard to a crime any patient with a substance use disorder, except as provided at §§ 2.12(c)(5) and 2.65.

If you receive this fax in error, please call us immediately upon receipt and return the facsimile documents to us by first class mail. Your postage will be reimbursed. Thank you for your cooperation.

# Breathe easier with expert pulmonary care

If you're facing respiratory challenges like shortness of breath, persistent cough, or sleep issues, our expert pulmonary team is here to help you breathe easier and live a healthier life.

**Our comprehensive pulmonary services can help. We offer:**

- **Personalized Treatment Plans** for Asthma, COPD, Emphysema, Pulmonary Fibrosis, Sleep Apnea, and more
- **Pulmonary Rehabilitation** to improve lung function and quality of life
- **Medication Management & Ongoing Support**

**Beyond general pulmonary care, we also offer specialized services to further support your health:**

- **Sleep Disorders:** We diagnose and treat sleep apnea, collaborating with sleep specialists for comprehensive, effective care.
- **Thoracic Health:** Our pulmonologists are equipped to treat diseases affecting the chest, lungs, and pleura, including pleural effusion and pneumothorax, to improve your breathing.
- **Lung Nodule Clinic:** Our team specializes in the diagnosis and management of lung nodules, including cancer risk assessment and treatments such as biopsies or surgery.
- **Neuromuscular Disease Support:** Pulmonologists help manage respiratory issues linked to neuromuscular diseases like Muscular Dystrophy and ALS, addressing complications like respiratory failure and infections.
